Our Ministry of Support Raising

We were very blessed the summer of 2007 by having many chances and invitations to present the need in Italy to people around the Midwest. We started in **Kentucky** at Mount Moriah Christian Church in Stanford, Kentucky where Paul was given the opportunity by the pastor, Rob Cox, to give the message at the Sunday night service. This was the second time that Rob has invited Paul to do this and we really appreciate it! Paul had a lot of support in the congregation that night as not only were his mom and dad in the pews (it's their home church) so were Dee's aunts and uncle. We visited several churches in Kentucky from Cynthiana to Frankfort to Lexington. We also visited a church in **Indiana**, and presented at Family Camp in Rock River **Illinois**. We are thankful to all that helped these opportunities happen. We feel this is our current ministry. So many are unaware of the

Paul presenting the need in Italy at a church in Indiana

need for Christians in Europe. One of our greatest blessings has been the Priority Prayer Partners! We are approaching the half-way point of fifty partners! There is a very definite power!

Family Happenings

This has been the summer of milestones. **Avalon** graduated kindergarten. **Armand** graduated Elementary school and we didn't realize it before the graduation ceremony but **Angela** graduated High School. She went to take a science class and was encouraged to apply to Gateway. I started putting together a transcript for Angela and found she had enough credits. Finally, **Alexa** graduated from college. A sad thing of sorts… Alexa moved to California to seek her fortunes in the entrainment industry. She left armed with a theater degree (stage management) and all the experience the University of Wisconsin Parkside could fill her with. We are glad she's following her dream.

Kid's Corner

Angela says..

We went to a lot of places this summer including Kentucky, Indiana, Rock river etc.. Would you believe I met a girl named Nahoko Iijima in rural Indiana? (Japanese exchange student. Go figure). I had two jobs. I was a nanny and I worked at the Renaissance Fair. I applied for college and got in!!!

Armand says…

I went to Rock River for the first time where I made a new friend. It's fun to travel but I like my home

We spent lots of family time together this summer. I love everybody in the whole wide world including God. Rachel is my best friend and we'll never break apart no matter what.
